"EUROL, THE FINEST OIL FROM THE NETHERLANDS"

says Tim Coronel

International Race Driver
Dakar Rally - WTCC - Drifting - Rally - DSCC - GT4

Quality is in our nature

EUROL SPONSORING

Extreme performance demands extreme quality. Only in professional auto and motor sports are there such high requirements from oil products. For this reason, Eurol sponsors a high number of motorised sports like drag racing, tractor pulling, motocross, rallycross, speedway and grand prix racing. Through years of experience Eurol knows better than anyone what it is all about. Specially developed additives provide products of superior level. Perfect lubrication and maximum protection in all conditions.

ABOUT EUROL

Eurol produces high-quality lubricants and technical fluids for professional and private end users. With its progressive technological developments and high innovation power, Eurol takes a leading position as the only independent Dutch lubricant blender.

MODERN PRODUCTION FACILITY

The making of high-quality oils requires knowledge, enthusiasm and very innovative production methods. Eurol has one of the most modern production facilities in Europe. Through its own Research & Development, 'state-of-the-art' technology and strict quality controls Eurol obtains products that deliver top performance. 'We develop the latest generation of oils in our own laboratory, in close cooperation with car and machine manufacturers.'

AMBITION

'Our ambition? To provide a very wide range of quality products with an optimal service. As such, we fulfill the various needs of our clients.' Eurol products provide optimal and safe performance worldwide and under all circumstances. Eurol is present in the following sectors: the automotive and transport sector, the two-wheeler and motorbike market, agriculture, industry and shipping.
